

NEXT-GEN ACADEMIC INFRASTRUCTURE

Smart Education & Campus Technology Platform

An AI-driven ecosystem unifying adaptive learning, automated operations, and accessible student support.

— Comprehensive Campus Innovation Project

Bridging the Campus Technology Gap

\$34.6B

Global Smart Campus Market Growth

Traditional universities face friction from fragmented systems, manual tracking, and non-adaptive learning.

Disjointed Systems

Siloed apps for attendance, timetables, and support create operational overhead.

One-Size-Fits-All Teaching

Standard pacing ignores individual learning speeds and doubt resolution needs.

Unified Campus Operating Engine

Adaptive Learning

Personalized pathways & 24/7 AI doubt solving engines.

Smart Operations

Automated attendance, timetables & lost item recovery.

Skill Verification

Digital skill ledger & verified credential tracking.

Inclusive Design

Universal accessibility features for diverse student needs.

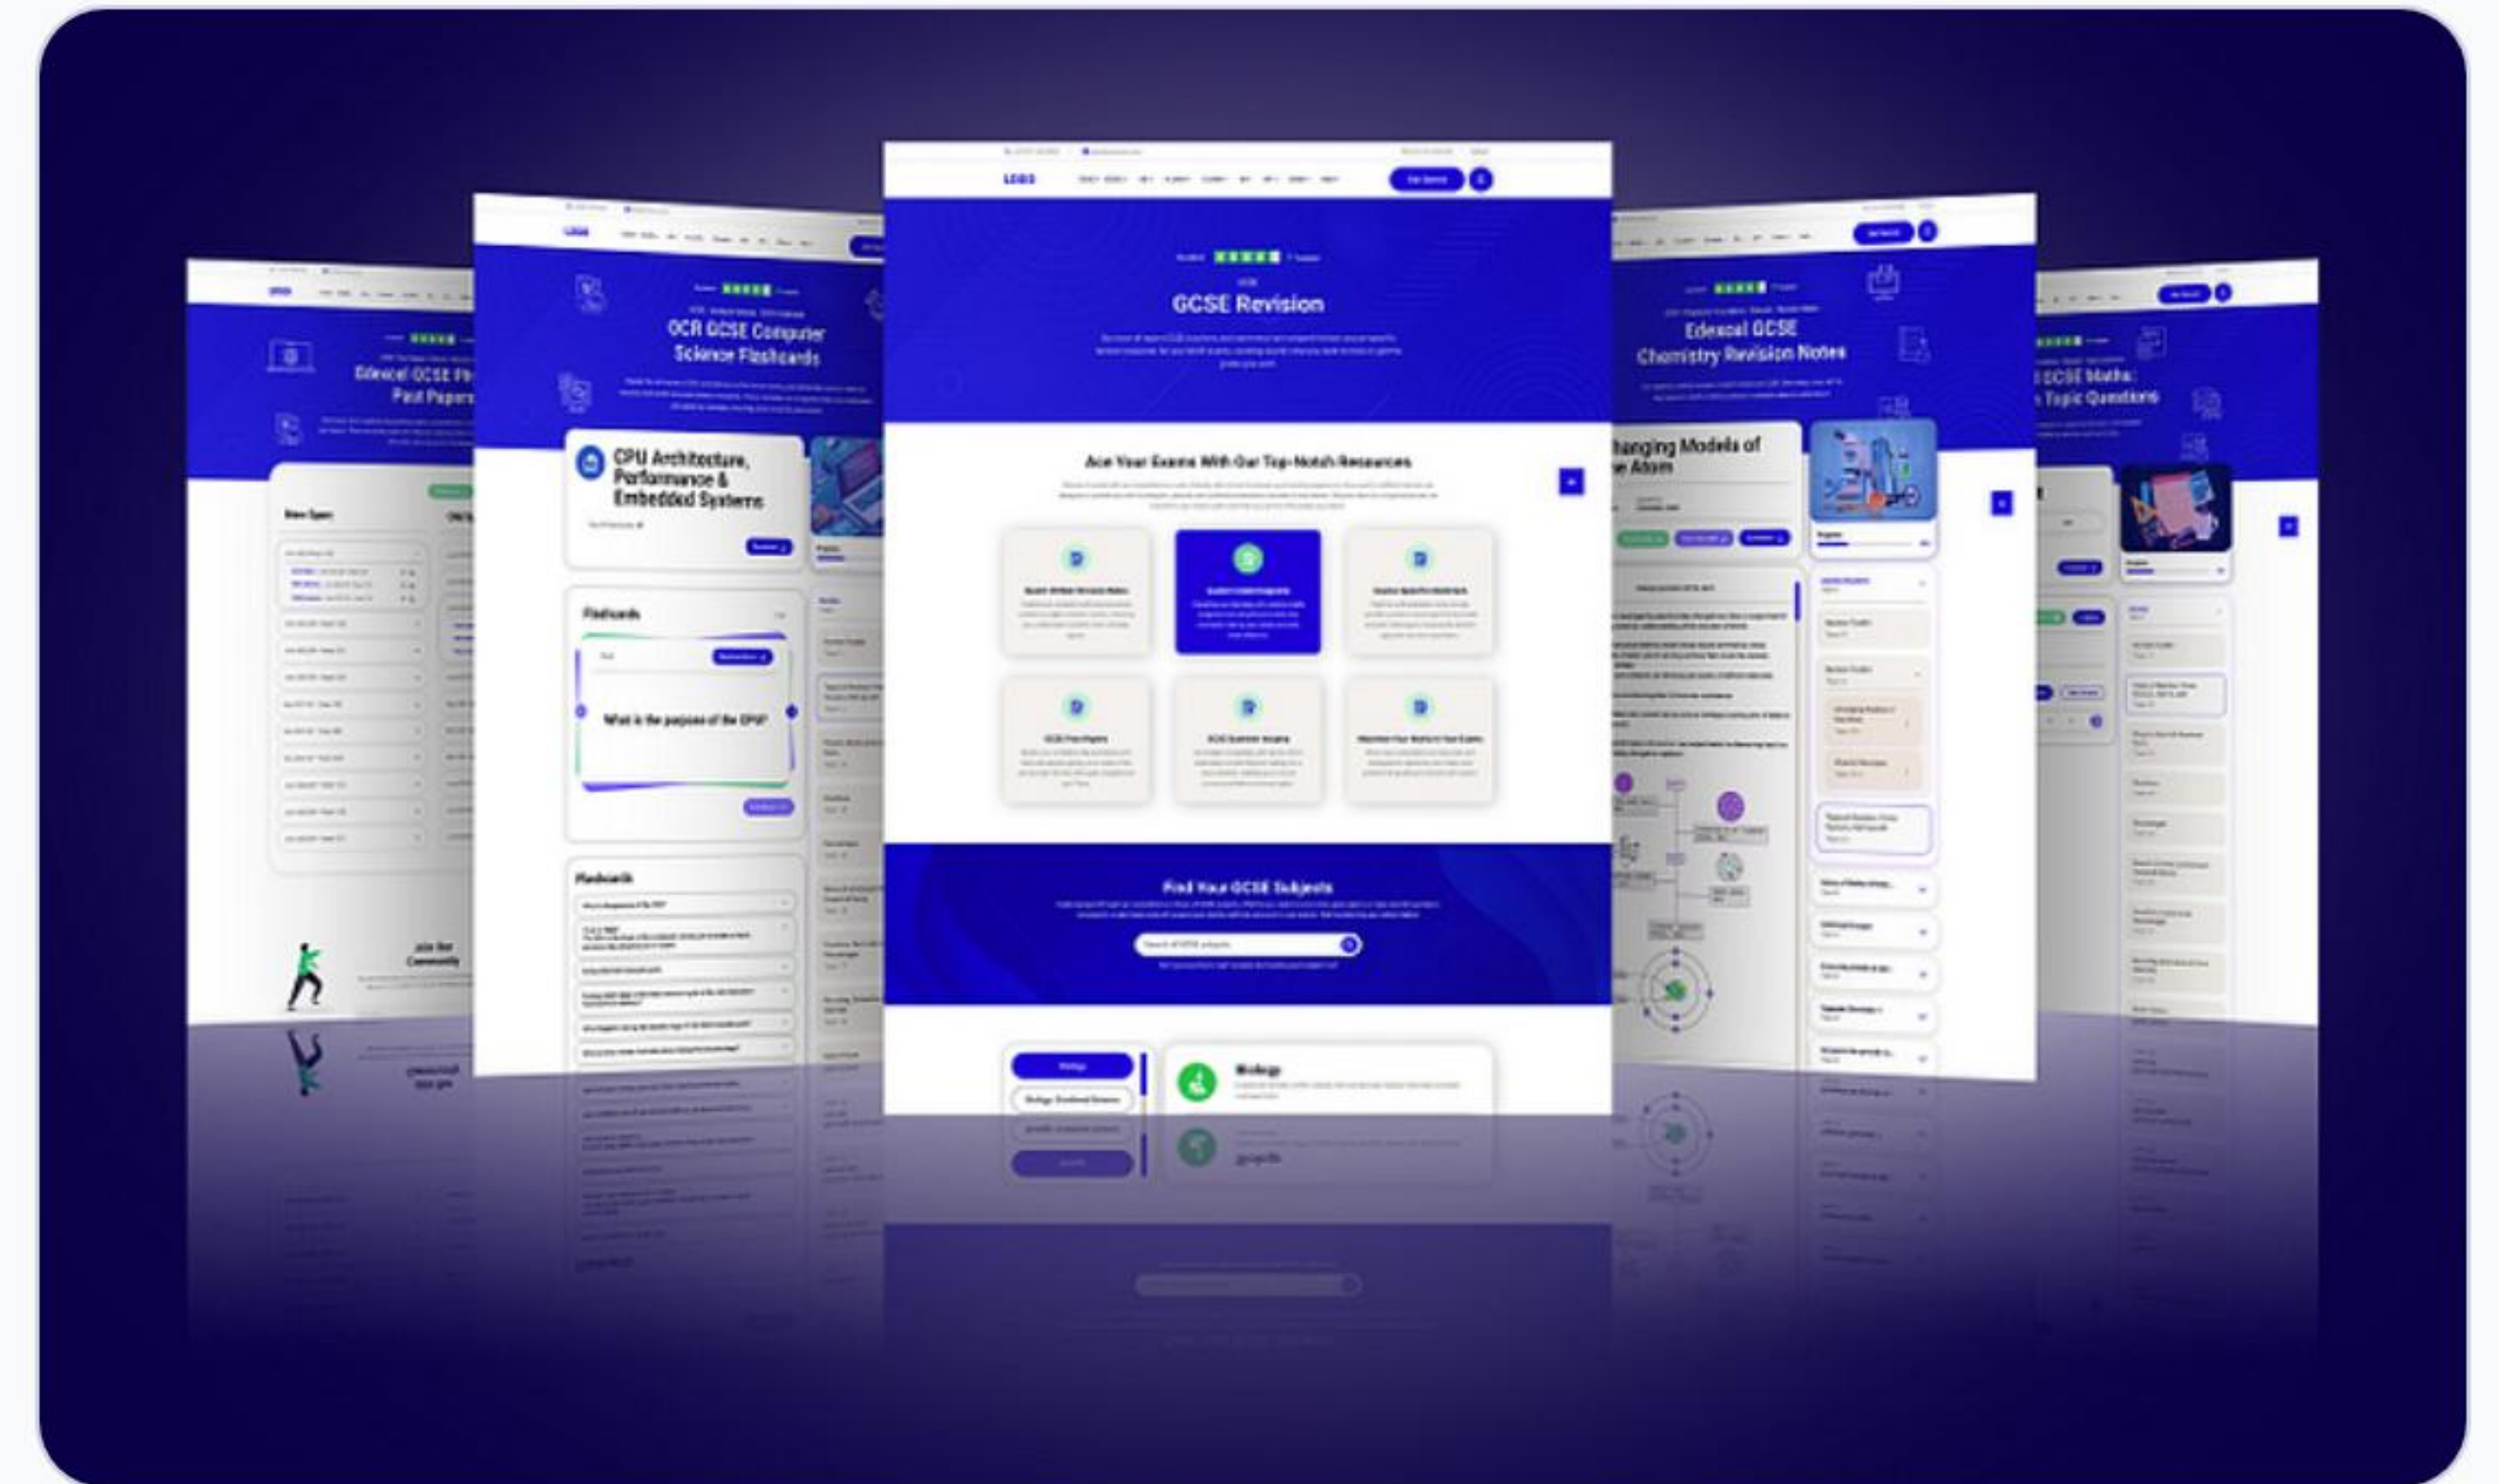

AI-Based Personalised Learning Platform

Adaptive Knowledge Mapping

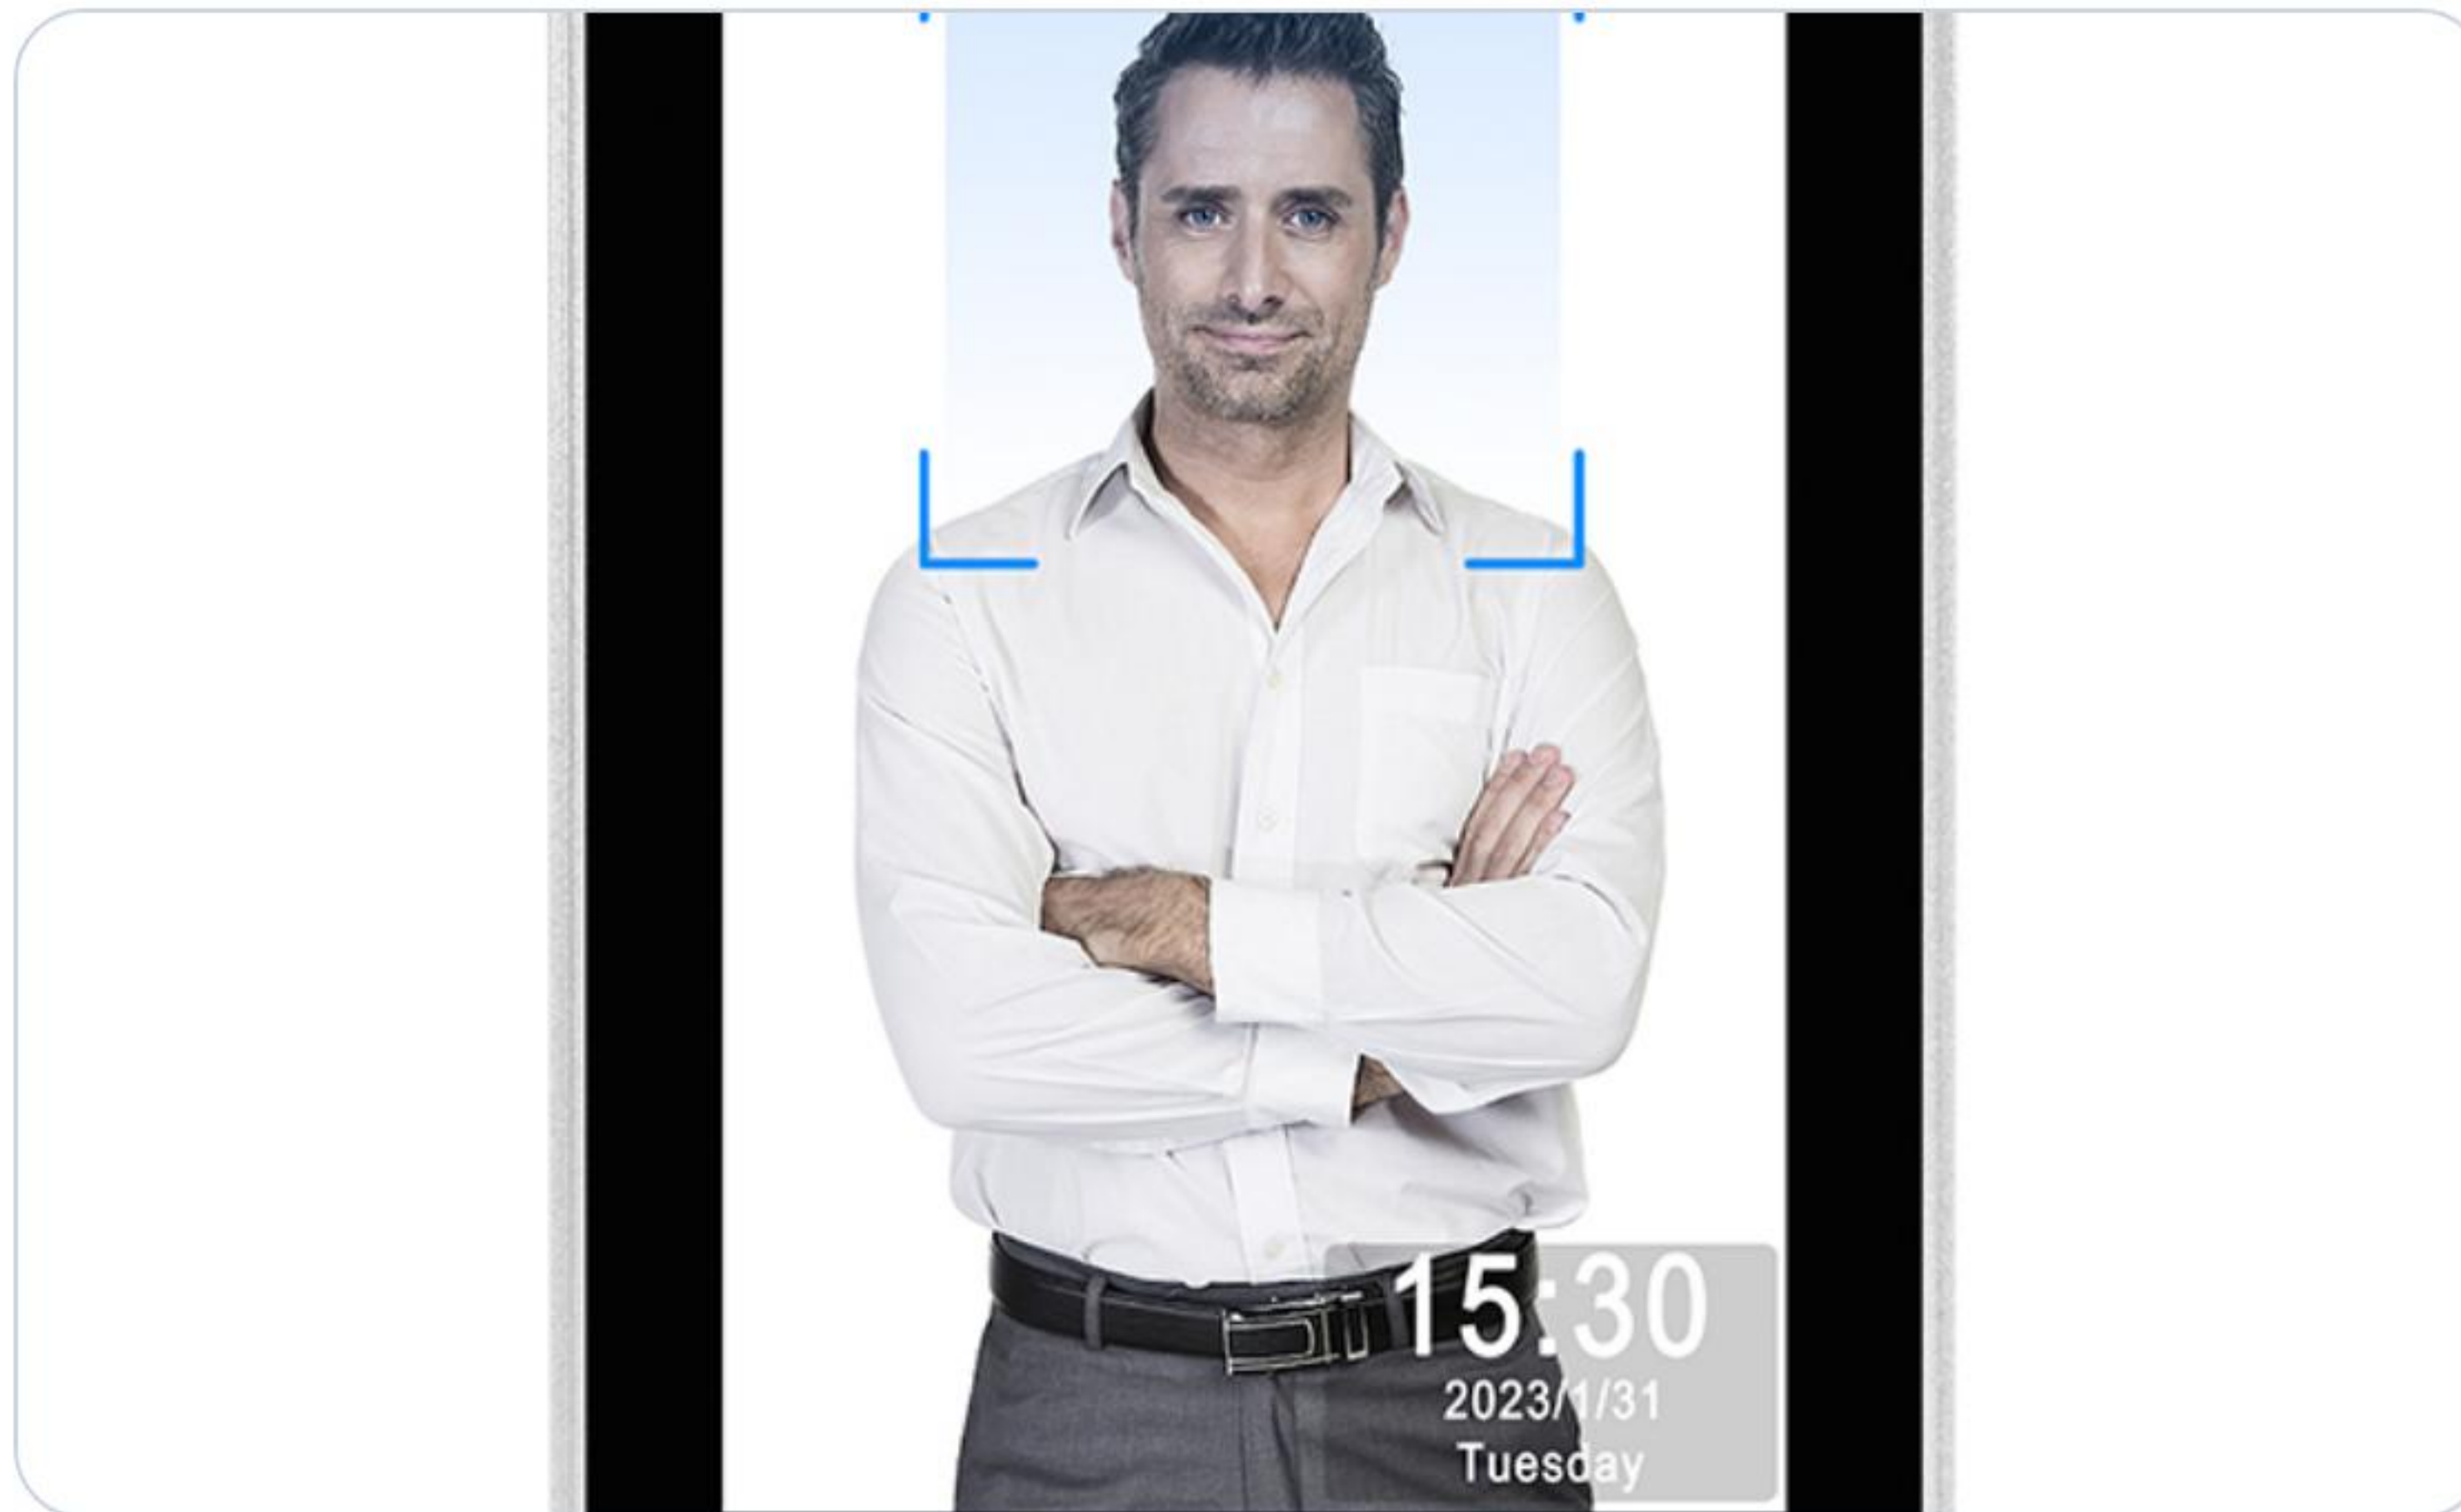

Dynamically recalibrates course speed based on student comprehension profiles.

Predictive Learning Analytics

Flags academic risk points early for targeted instructor intervention.

Smart Attendance & Engagement Tracker

Automated Verification

Uses RFID and computer vision for instant touchless roll calls.

Real-Time Classroom Metrics

Monitors participation trends and flags persistent absenteeism automatically.

MODULE 03

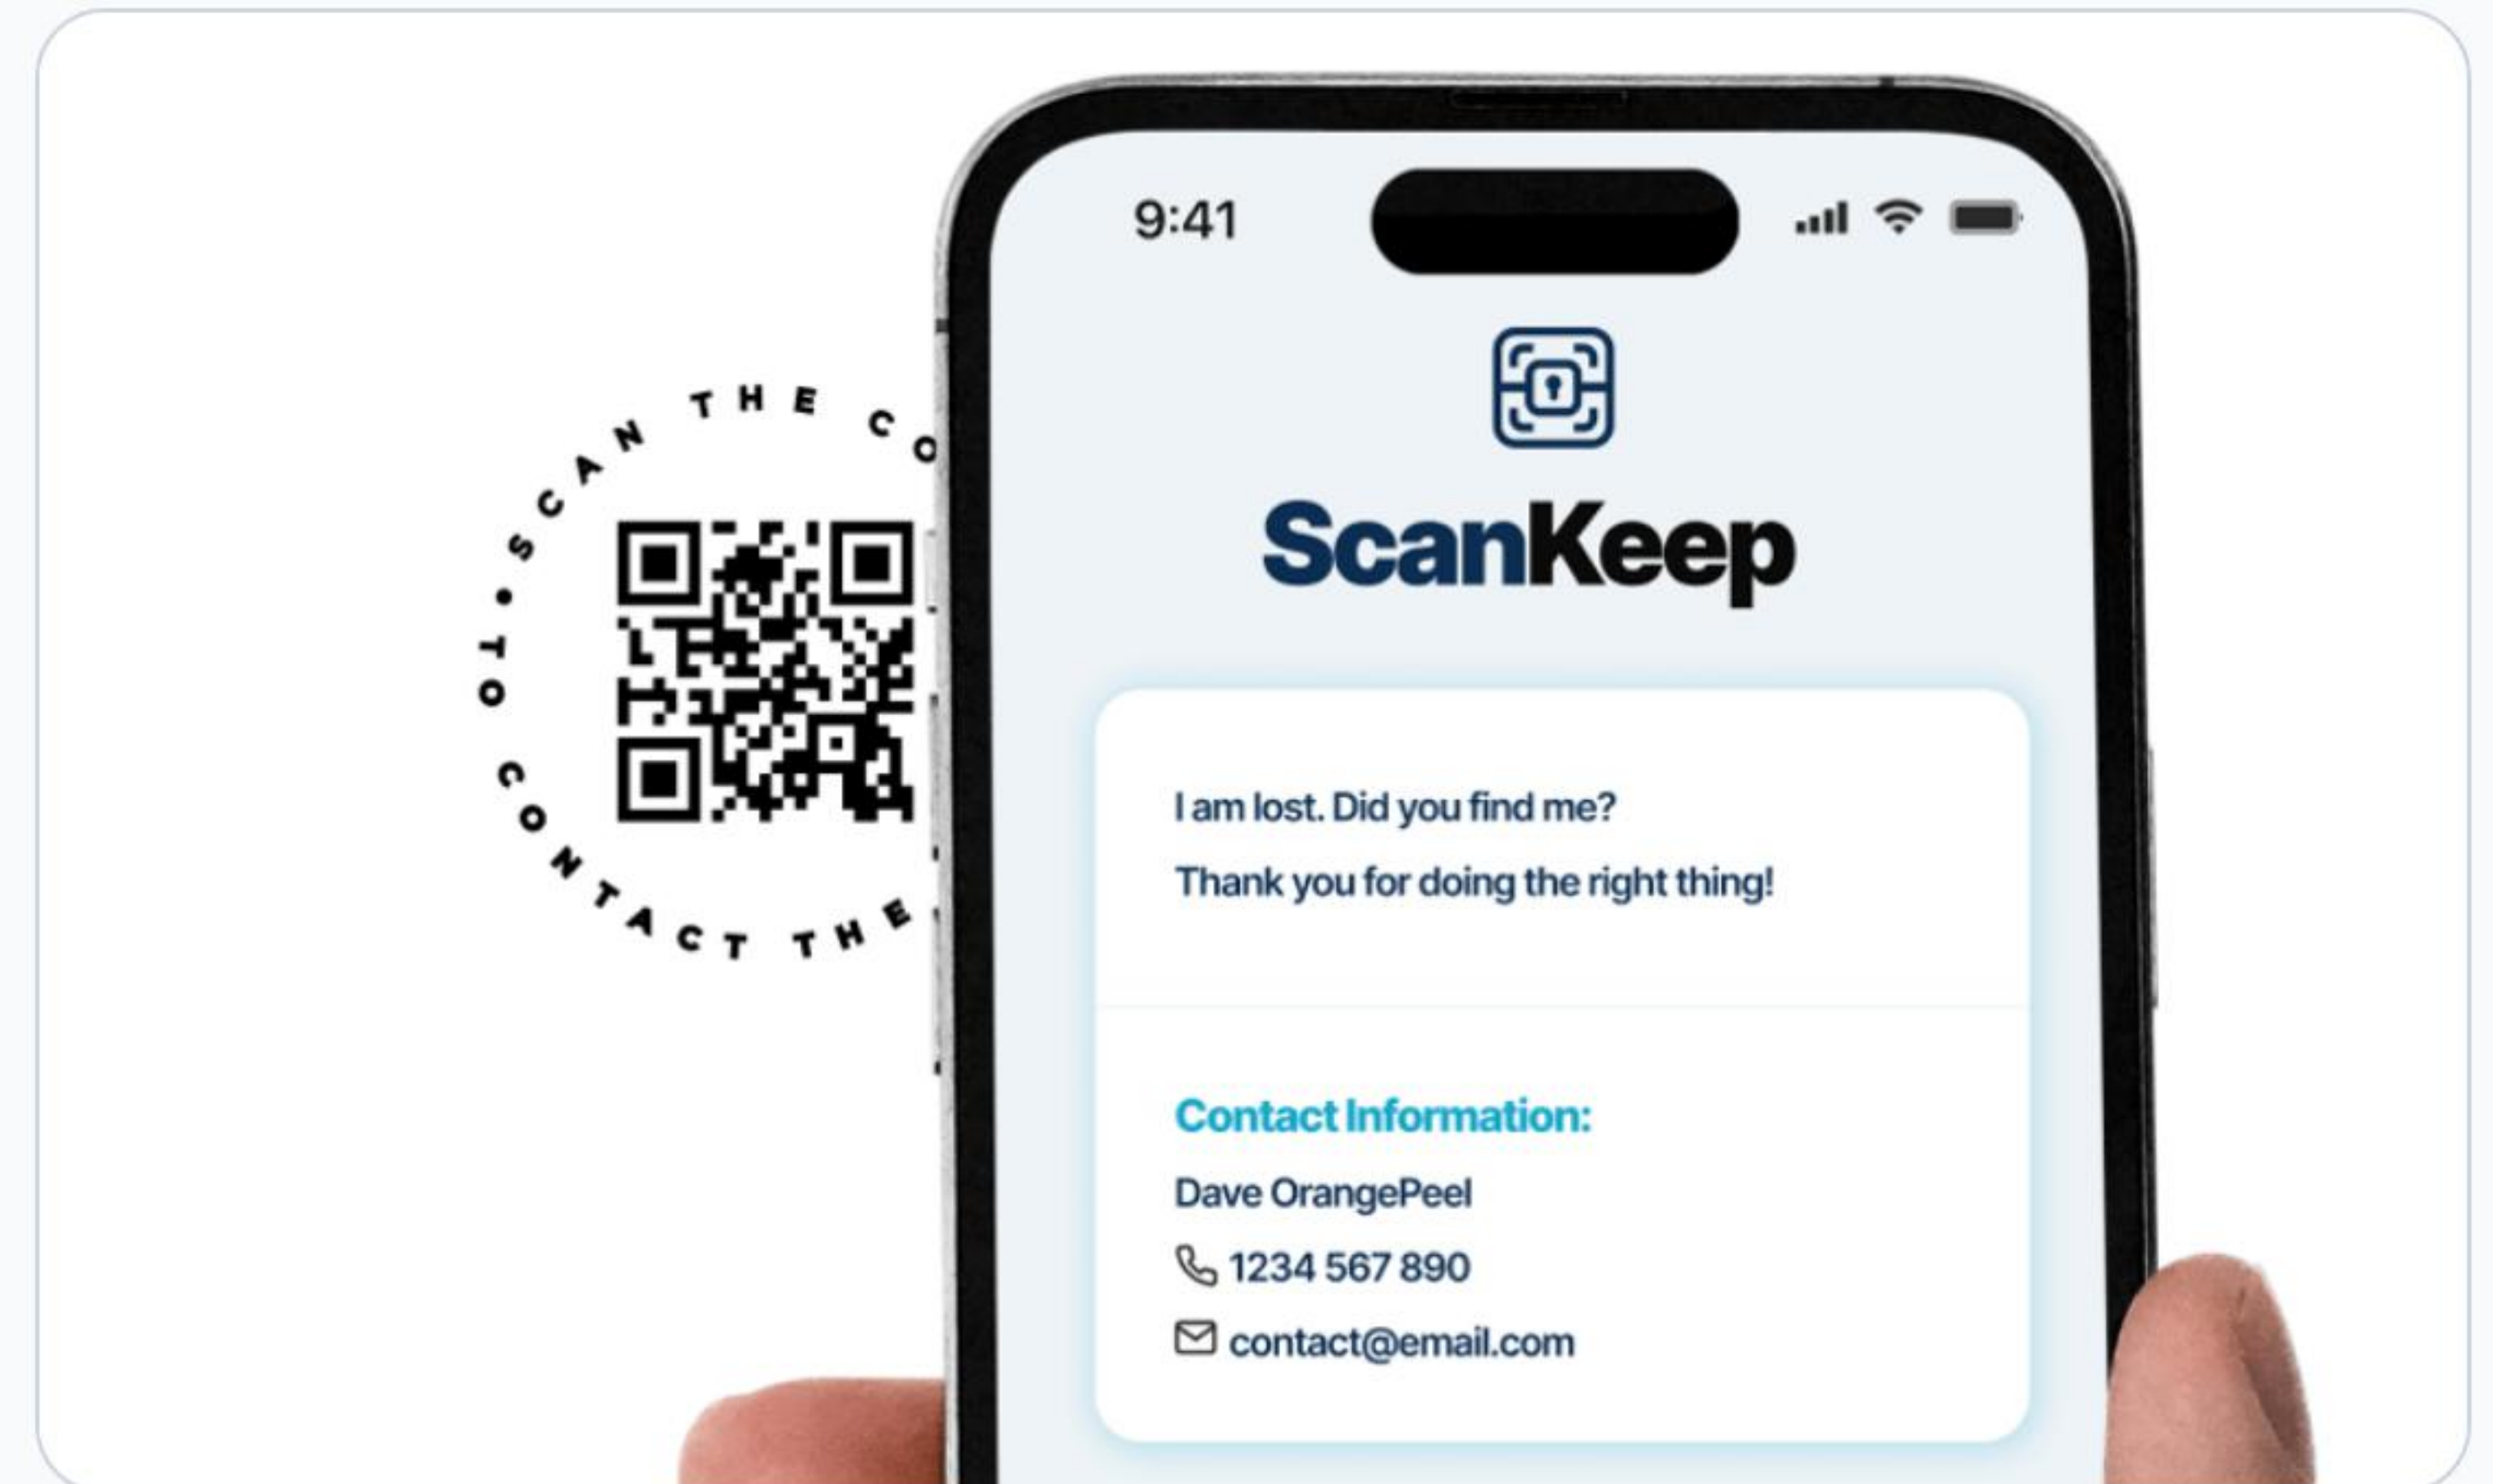

Campus Lost & Found Portal

Visual Item Recognition

Matches uploaded photos of found items with lost item reports using AI vision.

Secure Claim Verification

Automates ownership proof checks and location-tagged claim collection hubs.

AI-Powered Doubt Solving Engine

24/7 Contextual Assistant

Answers course queries instantly using syllabus-grounded language models.

Multimodal Query Resolution

Parses handwritten notes, equations, and voice queries with step-by-step guidance.

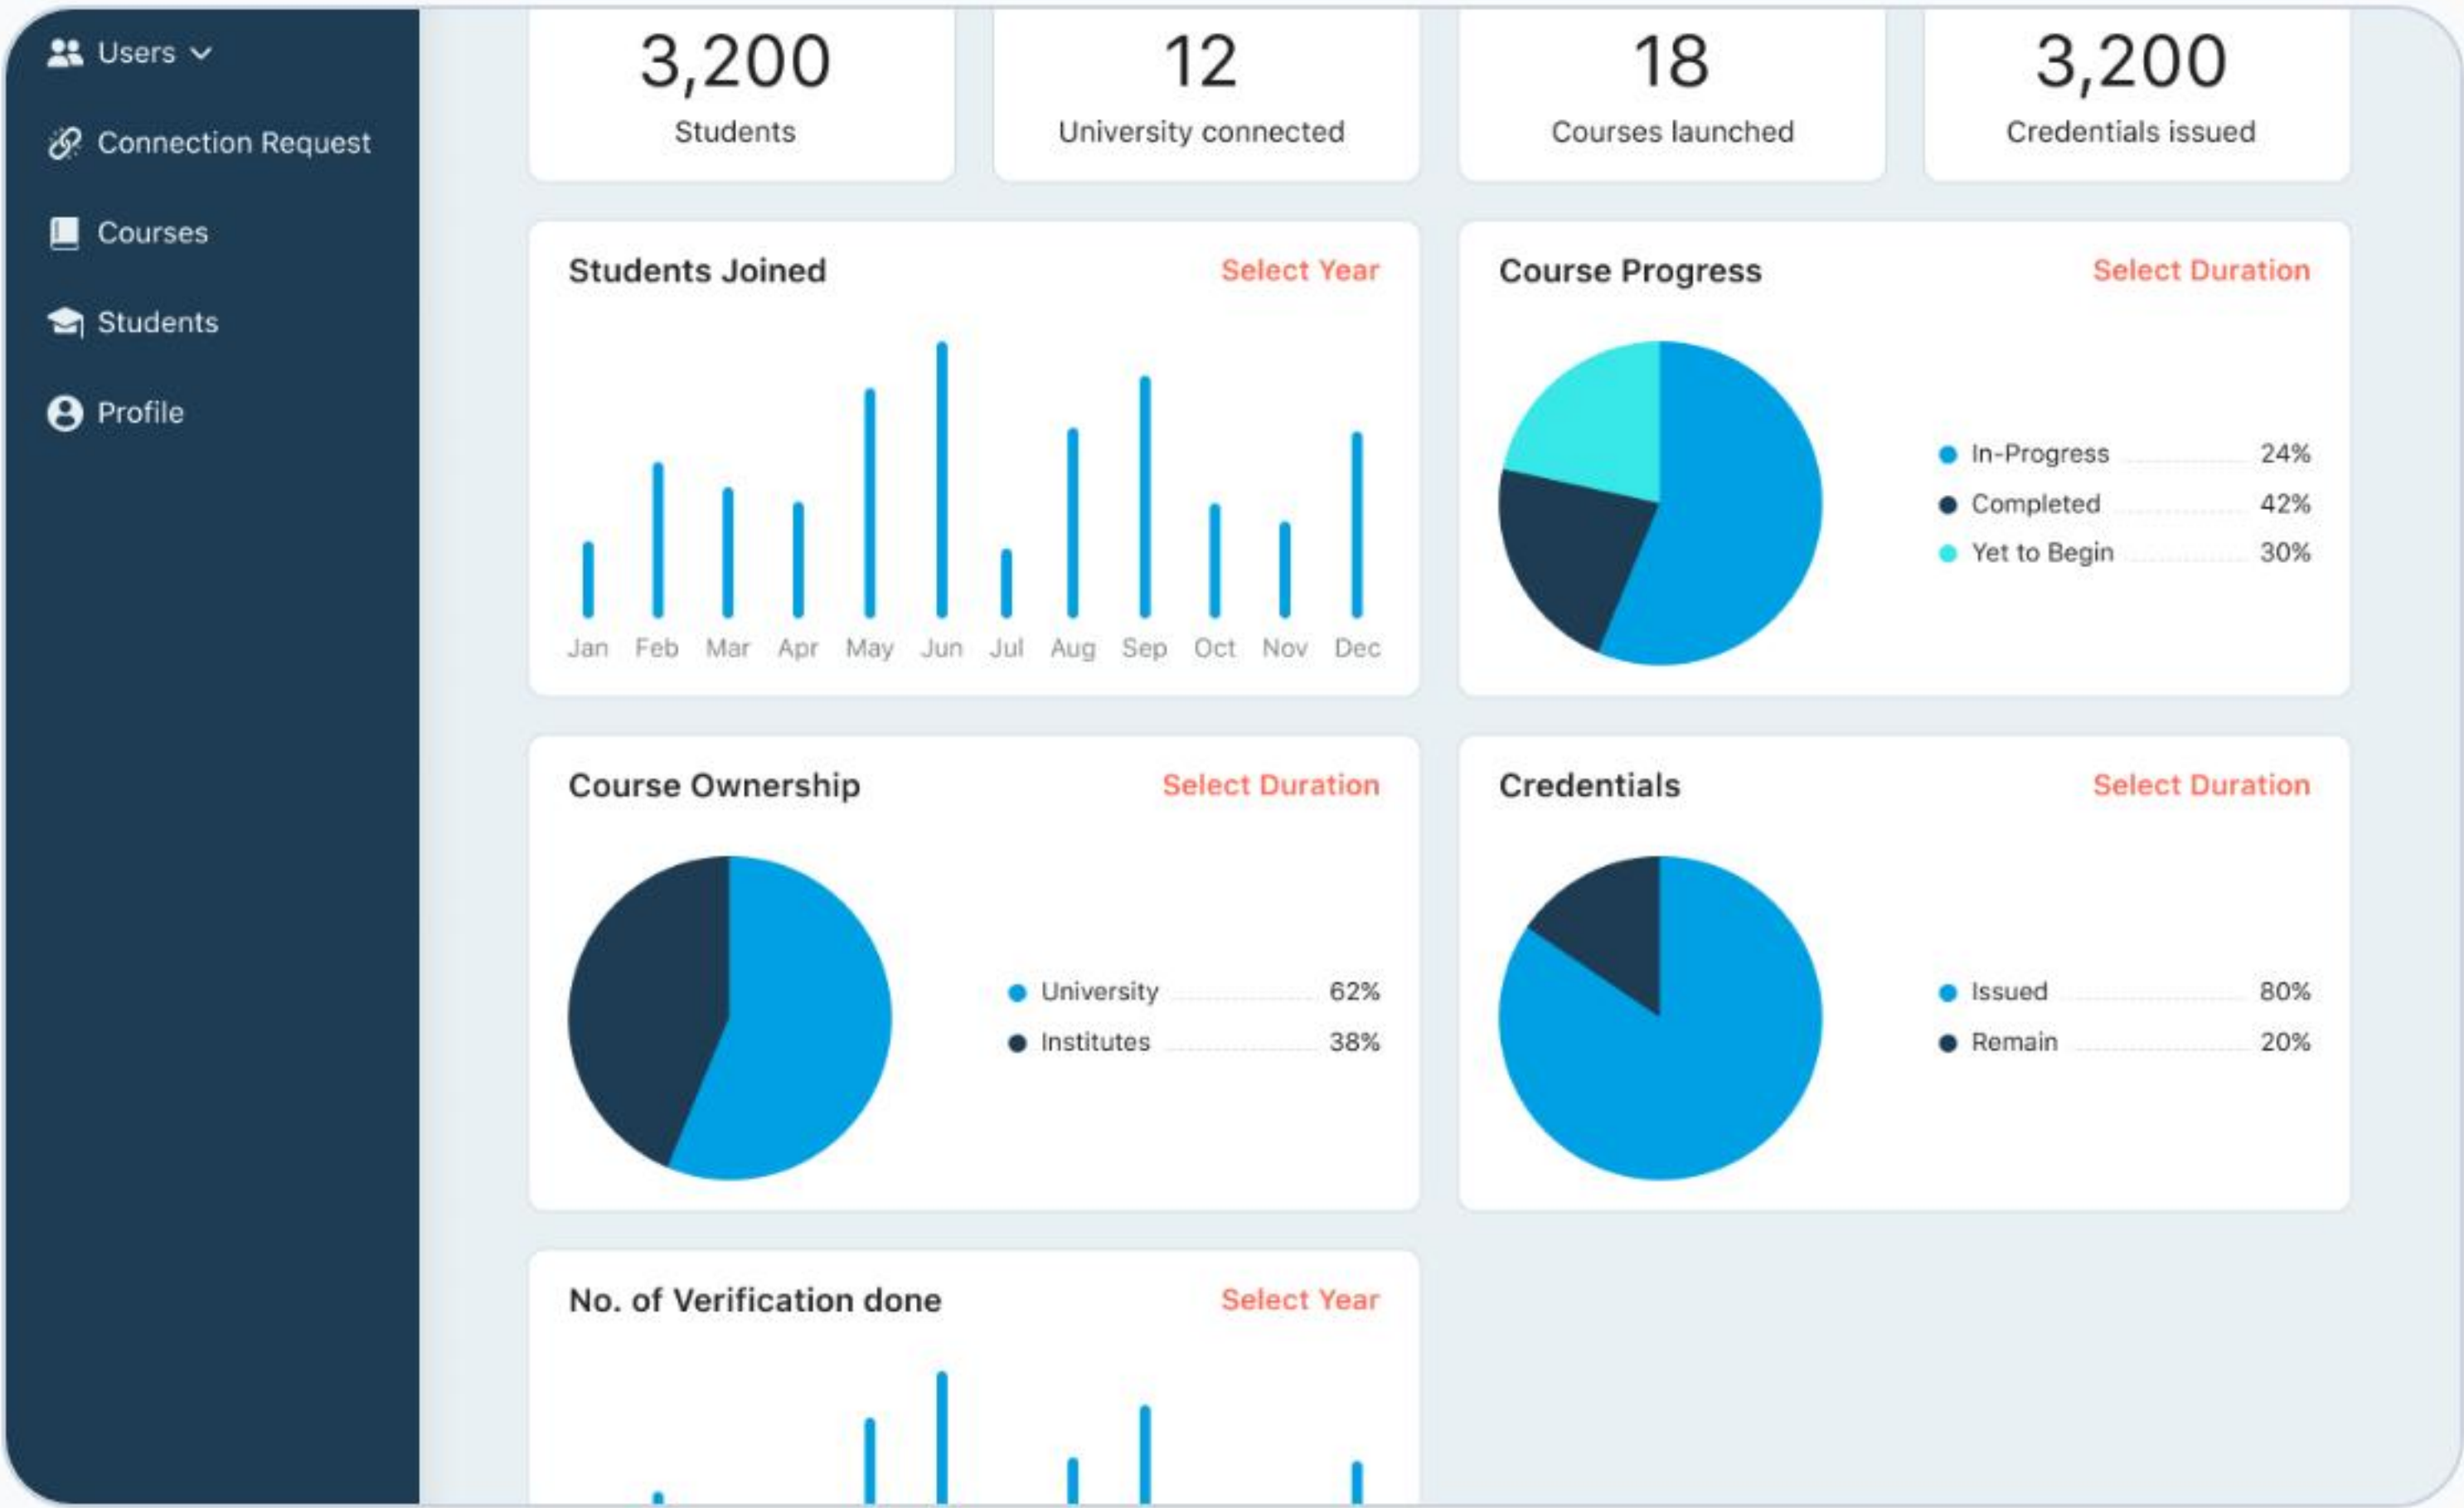

Digital Skill & Certification Tracker

Verified Skill Passport

Aggregates course badges, micro-credentials, and workshop certs into one portfolio.

Industry Alignment Index

Maps student skill proficiencies directly against real-world tech job requirements.

Smart Automated Timetable Generator

SMART TIMETABLES. BETTER SCHOOLS. 2026. AUTOMATE. OPTIMIZE. EMPOWER.

Timetable Generated — 0 Conflicts Detected — Generated in 2 Minutes

Gegok12 MIT Licensed - 2026

Constraint-Based Optimization

Resolves room conflicts, faculty availability, and lab resource limits instantly.

Dynamic Calendar Sync

Pushes reschedule alerts and room updates directly to student devices in real-time.

MODULE 07

Universal Student Accessibility Platform

Assistive Media Conversion

Converts lectures into live captions, screen-reader text, and audio formats.

Neurodivergent Support Modes

Offers distraction-free readers, custom contrast modes, and pacing control.

End-to-End Platform Integration Flow

PHASE 01

Data Ingestion

Student profiles & campus ERP sync.

PHASE 02

AI Model Processing

Personalization & doubt solver inference.

PHASE 03

Smart Automation

Automated attendance & timetable routing.

PHASE 04

Unified Dashboard

Real-time access for students & admin.

FUTURE-READY EDUCATION

Transforming Campuses with Intelligent Technology

Empowering institutions, accelerating student learning, and
automating daily operations.
